

DR NEVILA LEDWIDGE

After 12 years as a General Practitioner firstly at Church Street Surgery and subsequently at Beechfield Medical Centre, Dr Nevila Ledwidge has decided to relocate with her family to Oxfordshire and has accepted a new role as a GP at a practice there. She will leave the partnership in September 2019, although her last appointments at the practice will be in mid-August. Dr Ledwidge wishes to extend her thanks and good wishes to the many patients she has had the pleasure of working with throughout her time in Spalding.

The practice has recruited a replacement for Dr Ledwidge and we expect Dr Mark Beaver, who is relocating from Essex, to join the team in August or September.

Please note however that we operate a “pooled” system at the practice, and all patients are able to see any available GP of their choice at the time they make their appointments.

We wish Dr Ledwidge the best of luck in her new venture as, we are sure, do all of her patients.
